

Industrial Stormwater Survey

In accordance with section 6.4.3.11 of the ADEQ Municipal Separate Storm Sewer System(MS4) permit, the City of El Mirage is required to identify unpermitted facilities and activities(construction/industrial) that discharge to the City's stormwater system. As part of the City's Stormwater Management Program this survey is required to identify, locate, and evaluate all industrial facilities and activities within the City that may be subject to this requirement.

Some industrial facilities and activities may be regulated by the Arizona Department of Environmental Quality's(ADEQ) Multi-sector General Permit(MSGP). Those facilities subject to permit requirements must present proof of coverage to the City. Information for determining if industrial permitting applies can be found on the attached survey or by visiting ADEQ's website at https://azdeq.gov/MSGP_Industrial/Non-Mining. The City of El Mirage does not have jurisdiction over any aspects of the MSGP program and all questions should be directed to ADEQ. There are no fees required to be paid to the City of El Mirage as part of this survey.

Industrial facilities and activities in the City may have zero stormwater discharge to the City's stormwater system. Documentation certified by a Professional Engineer(P.E.) or Registered Geologist (R.G.) may be submitted as proof.

To support this mandatory evaluation, your business is required to complete the enclosed Industrial Stormwater Survey.

Property Owner _____ Phone _____

SIC/NAICS # _____

Provide a brief description of all operations at this facility, including primary products or services:

- Is your industrial activity subject to MSGP requirements?*
- Yes (Continue with survey)
 No (End survey)
- Will your facility discharge to the City's roads or drainage system?**
- Yes (Continue with survey)
 No (Attach engineer certified letter stating no discharge will occur from facility)

Type of ADEQ Document obtained: MSGP # _____ No Exposure Certificate (NEC) # _____

*Contact ADEQ for sectors of industrial activity covered by the multi-sector general permit or for questions regarding permits. Last updated list of regulated activities can be found at http://static.azdeq.gov/wqd/stormwater/msgp_sectors.pdf

**This includes any discharge from the property boundary including those caused by rainfall.

Completed survey should be submitted within 60 days of new construction completion or change in ownership of industrial property or operations. Please attach copies of required documents. Contact the stormwater management program with any questions or help with completion of this form. This form is required in order to fulfill the requirements of the City's MS4 permit section 6.4.3.11.
